Prestige Animal Sculptures

The magnificent cheetah hurtles across the ground at maximum speed, straining every muscle in pursuit of its prey. Sculptor Nick Bibby has captured the power and beauty of the cheetah, its feet barely touching the ground; a tremendous technical challenge to cast in fine bone china. Aside from the gloss of the eye, the satin glaze helps capture every detail and texture of the cheetah in this wonderful hand-painted sculpture.

Height: 360mm, Width: 530mm, Depth: 250mm

Peregrine Falcon

This dramatic fine bone china sculpture captures the very essence of the magnificent Peregrine Falcon, one of the most beautiful birds of prey. Every detail of the bird's plumage is painted entirely by hand.

Height: 450mm, Width: 760mm, Depth: 330mm

Golden Eagle

The power and majesty of the Golden Eagle are beautifully captured in this evocative fine bone china masterpiece of ceramic art. The eagle's wings are spread ready for flight, its feathers ruffled by the wind.

Height: 490mm, Width: 430mm, Depth: 340mm

Gyrfalcon

The satin glaze of this astonishingly lifelike study enhances the detail and texture of the dramatic white and black Gyrfalcon, perched on its handler's gauntlet. The glint of the falcon's sharp eye is highlighted with a gloss finish.

Height: 480mm, Width: 280mm, Depth: 260mm
